

Public Review: Comments on Draft ETSI TR 119 300 v0.0.5 – 31 May 2014

Electronic Signatures and Infrastructures (ESI); Business Guidance on Cryptographic Suites

Foreword: Please note that the following disposition of comments is provided to the light of the current context of the m460 mandate, in particular with regards to Directive 1999/93/EC. It should be noted that such disposition should be reviewed to the light of the eIDAS Regulation.

Organization name:	Clause/ Subclause	Paragraph Figure/ Table	Type of comment (General/ Technical/Editorial)	COMMENTS	Proposed change	Resolution on each comment submitted
Entity 1						
Entity 1 - 1.	5.1.4		T	<p>"...cost of the issuance of a new key and a new signature creation device."</p> <p>Despite the amendment proposed in our previous round of comments had been marked as "accepted" in the Disposition of comments, the following proposal has been overlooked, therefore it is proposed again.</p> <p>Comment: "It is not technically mandatory to use a different SCDev every time a new key pair is to be generated. It depends on the SCDev type."</p>	Proposal: "of a new key and, <i>where applicable</i> , a new signature creation device."	Sorry for overlooking it, certainly accepted and changed
Entity 1 - 2.	5.1.4		E		" C reation"	done
