

# Welcome to the World of Standards

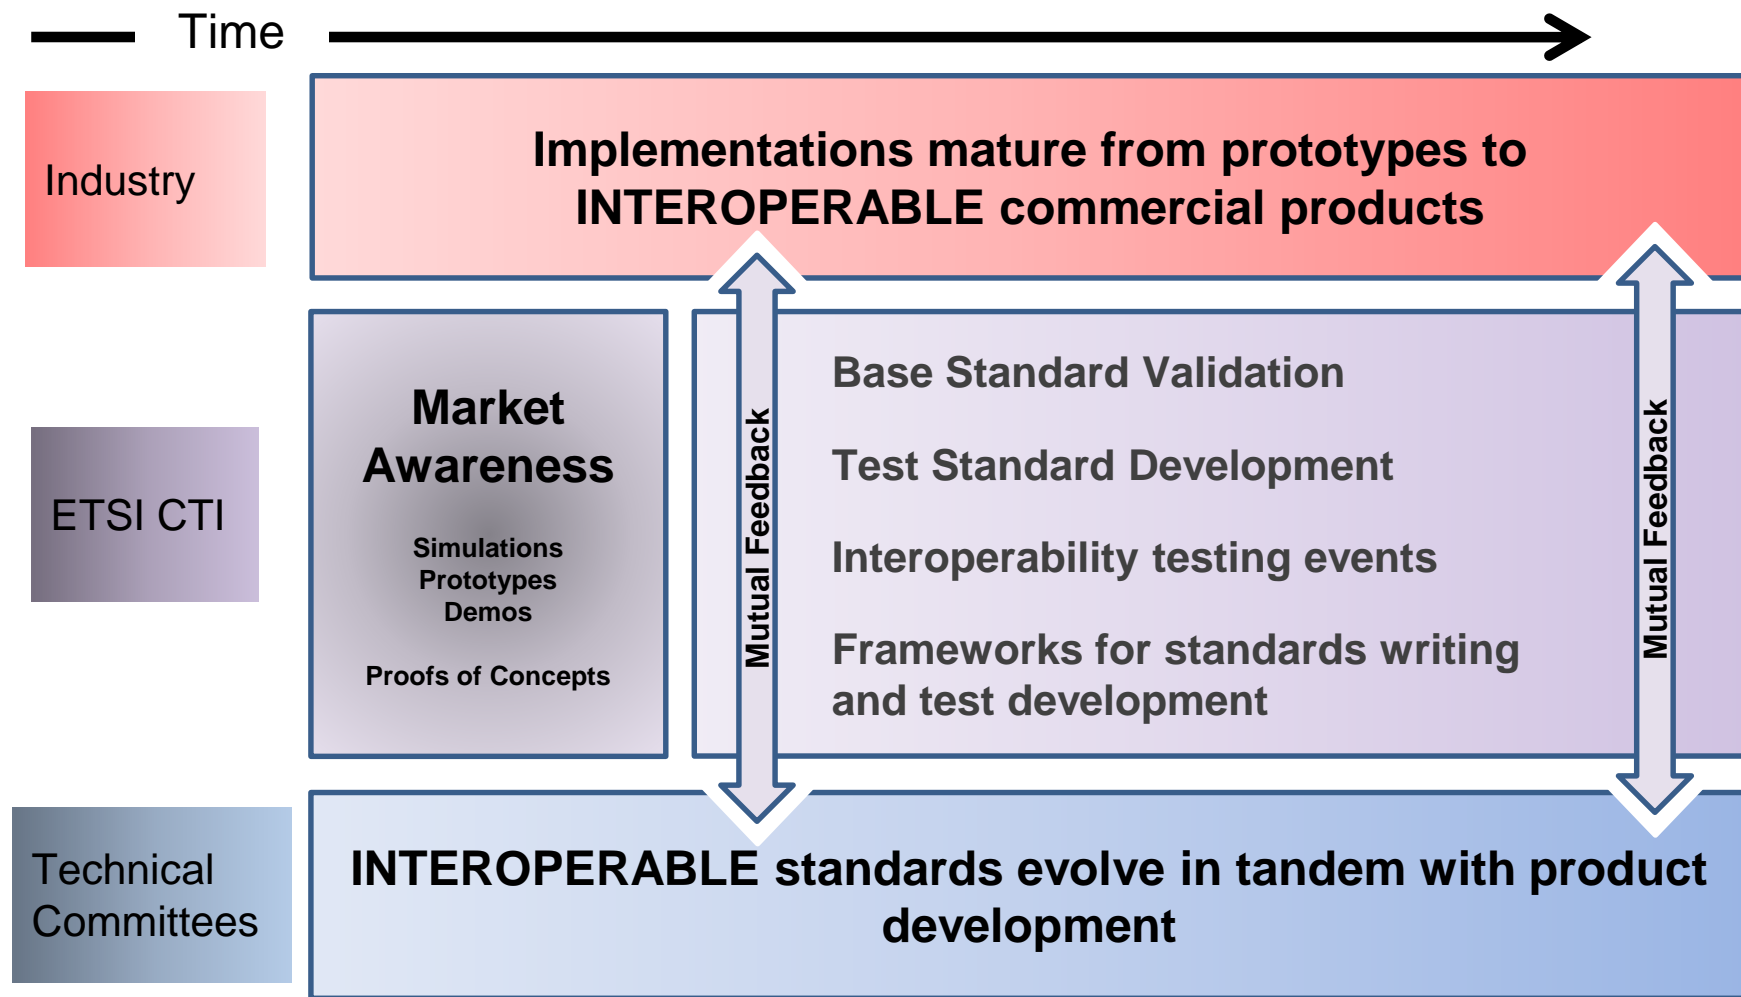

## PROPOSAL FOR MISSION CRITICAL PUSH TO TALK (MCPTT) PLUGTEST

Sebastian Müller, ETSI CTI  
Broadband PPDR Workshop, ETSI, France  
29.9.2016

**PLUGTESTS™**  
INTEROP EVENTS

# What is a Plugtests™ event?

- A test event
  - Organized and run by ETSI (as neutral body) in collaboration with industry partners
  - Scope, test infrastructure and test plan based on standards
  - Feedback to the ETSI technical group
  - A tool for the ETSI technical group to validate and enhance the quality of their standards
- An opportunity for implementers
  - To validate their understanding of the standard
  - To test with (many) other real implementations
  - To debug their implementation: early bug fixing, saving time
- An opportunity for the community
  - To promote the technology and the eco system
  - To demonstrate end-to-end interoperability

# How do we Organise Plugtests?

- Event Co-ordinators
  - Registration
  - NDA
  - Hotels
  - Finance
  - Shipping of equipment

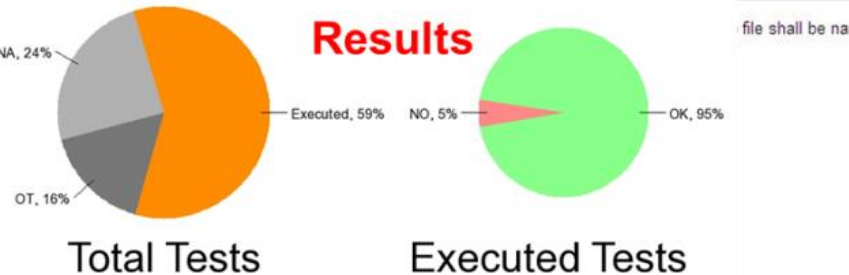

- CTI
  - Management
  - Testing Expertise
- Subject Matter Experts
- Technical partners (e.g., Com4Innov)
- Hosts
- IT Support

# A typical Plugtest looks like this ...

		Area 1	Area 2	Area 3	Area 4	Area 5	Area 6
Mon 14	14:00-18:00	First half	Radio Test		Colabo/NCP	Peak/TNO	Hitsch
		Second half	SEC	Vector			Hitsch
<b>Test planning</b>							
Tue 15	9:00-13:00	First half	Colabo/NCP	Simons	DENSO	Hitsch	ITRI
		Second half	Vector	Notifys	QUVIC	SEC	Q-Free
Tue 15	14:00-18:00	First half	Radio Test		DENSO	Colabo/NCP	SEC
		Second half	ITRI	Notifys	Vector	Peak/TNO	Q-Free
Wed 16	9:00-13:00	First half	Q-Free	Peak/TNO	DENSO	Notifys	ITRI
		Second half	Vector	Colabo/NCP	Simons	QUVIC	SEC
Wed 16	14:00-18:00	First half	Radio Test		QUVIC	Colabo/NCP	Hitsch
		Second half	Peak/TNO	ITRI	DENSO	Simons	Notifys
Thu 17	9:00-13:00	First half	Hitsch	Q-Free	Colabo/NCP	SEC	ITRI
		Second half	Simons	Peak/TNO	DENSO	Notifys	Vector
Thu 17	14:00-18:00	First half	Radio Test		Colabo/NCP	Peak/TNO	Hitsch
		Second half	ITRI	Notifys	DENSO	Colabo/NCP	Hitsch
14:00-18:00	7	<p><b>Results</b></p>					
Fri 18	9:00-13:00

- Rel-13 frozen for Mission Critical Push To Talk (MCPTT) features in 3GPP
- To support industry in the deployment of 3GPP Rel-13 Mission Critical Communication Networks
- To organize a series of MCPTT Plugtests in collaboration with TETRA + Critical Communications Association (TCCA) 
- To develop a standardized Interoperability Test Specification
- Plugtest Results will be used to improve the specifications

- MCPTT application servers
- MCPTT Client running on UEs
- LTE networks supporting mission critical QCI
- eMBMS support for group communication
- Off-network operations (Device to device)
- interworking between TETRA and MC LTE
- Identity and Group management servers
- Location
- Security

# Potential Scope of the first Plugtest

- Connectivity (CONN): Basic connectivity between functional elements at different levels including Access Network (LTE), IP Network, SIP and Application
- Policy (PCC): LTE bearer signaling and allocation (MC QCI)
- Unicast Media (UNM): Voice over unicast flows  
Additionally location information
- Multicast Media (MCM): Voice over multicast flows  
Additionally location information

# Provisional Planning

	Provisional Planning			
	Dec-16	Jan-17	Feb-17	Mar-17
Conf Calls	7 Dec, 2PM CET	18 Jan, 2 PM CET	15 Feb, 2PM CET	
Registration	1/12/2016 - 17/04/2017			
Integration				
Pre-testing				
Plugtest				

	Provisional Planning MCPTT Plugtest		
	Apr-16	May-17	Jun-17
Conf Calls	every two weeks		
Registration			
Integration		17/04/2017 - 01/06/2017	
Pre-testing		16/5 - 16/6/2017	
Plugtest			19- 23/6/2017

-  AIRBUS
-  AIR-LYNX
-  ATHONET
-  BITTIUM
-  ETELM
-  FREQUENTIS

-  GENAKER
-  HUAWEI
-  HYTERA
-  NEMERGENT
-  SEPURA

- 🌐 French Interior Ministry
- 🌐 UK Home Office
- 🌐 BT
- 🌐 Police NL
- 🌐 ASTRID, Belgium Public Safety Network Operator
- 🌐 PSC-E (Public Safety Communications Europe)

- Complete the ongoing interviews
- Agree test scope with interested vendors, users and observers
- Confirm host location
- Create Plugtest web page
- Announce Plugtest via the ETSI and Partner Channels

The screenshot shows the event page for "NG112 Emergency Communications Plugtests #2". The page includes a navigation menu on the left with links for "Latest News", "ETSI Newsletter", "Upcoming Events", "Recommended Events", "Webinars", "Videos", "5G Summit videos", "ETSI Seminar", "Media Resources", "Past Events", and "News & Events Contacts". The main content area features the event title, dates "6-10 MARCH 2017", and a "REGISTER" button. Below this, it states "THIS EVENT IS FREE OF CHARGE" and "ETSI, SOPHIA ANTIPOLIS, FRANCE". A paragraph of text describes the event, mentioning ETSI's cooperation with EENA. An image shows a globe and a 3D bar chart. Below the image is the title "NG112 Emergency Communications Plugtest". Further text explains the concept of "Next Generation 112" (NG112) and the testing campaign. A list of services to be tested is provided: video calling, instant messaging (1:1 chat, group chat), and file transfer. A final note mentions a Non-Disclosure Agreement. On the right side, there are sections for "Partners" (EENA logo) and "Supporters" (European Commission logo). A "Related Documents" section lists "Next Generation 112 Long term definition document" and "EENA LTD Primer\_v1.1".
