Open Initiative Framework

Plan for 2017

- **Continue to Drive Service Definitions (Layer 2, Layer 3, Connectivity Services)**
- **Drive Policy-Driven Orchestration Modeling (coordinated with IETF) and Use in Orchestration and Management**
- **Start Incorporation of Security Modeling (coordinated with IETF)**
- **Drive Alignment of Information Models (MEF-TMF-ONF collaboration)**
- **Ensure Business and Service Concepts are Mappable to Resources**
- **Leverage Open Source and Hackathons to validate the LSO Reference Architecture**

Call for Modelers!

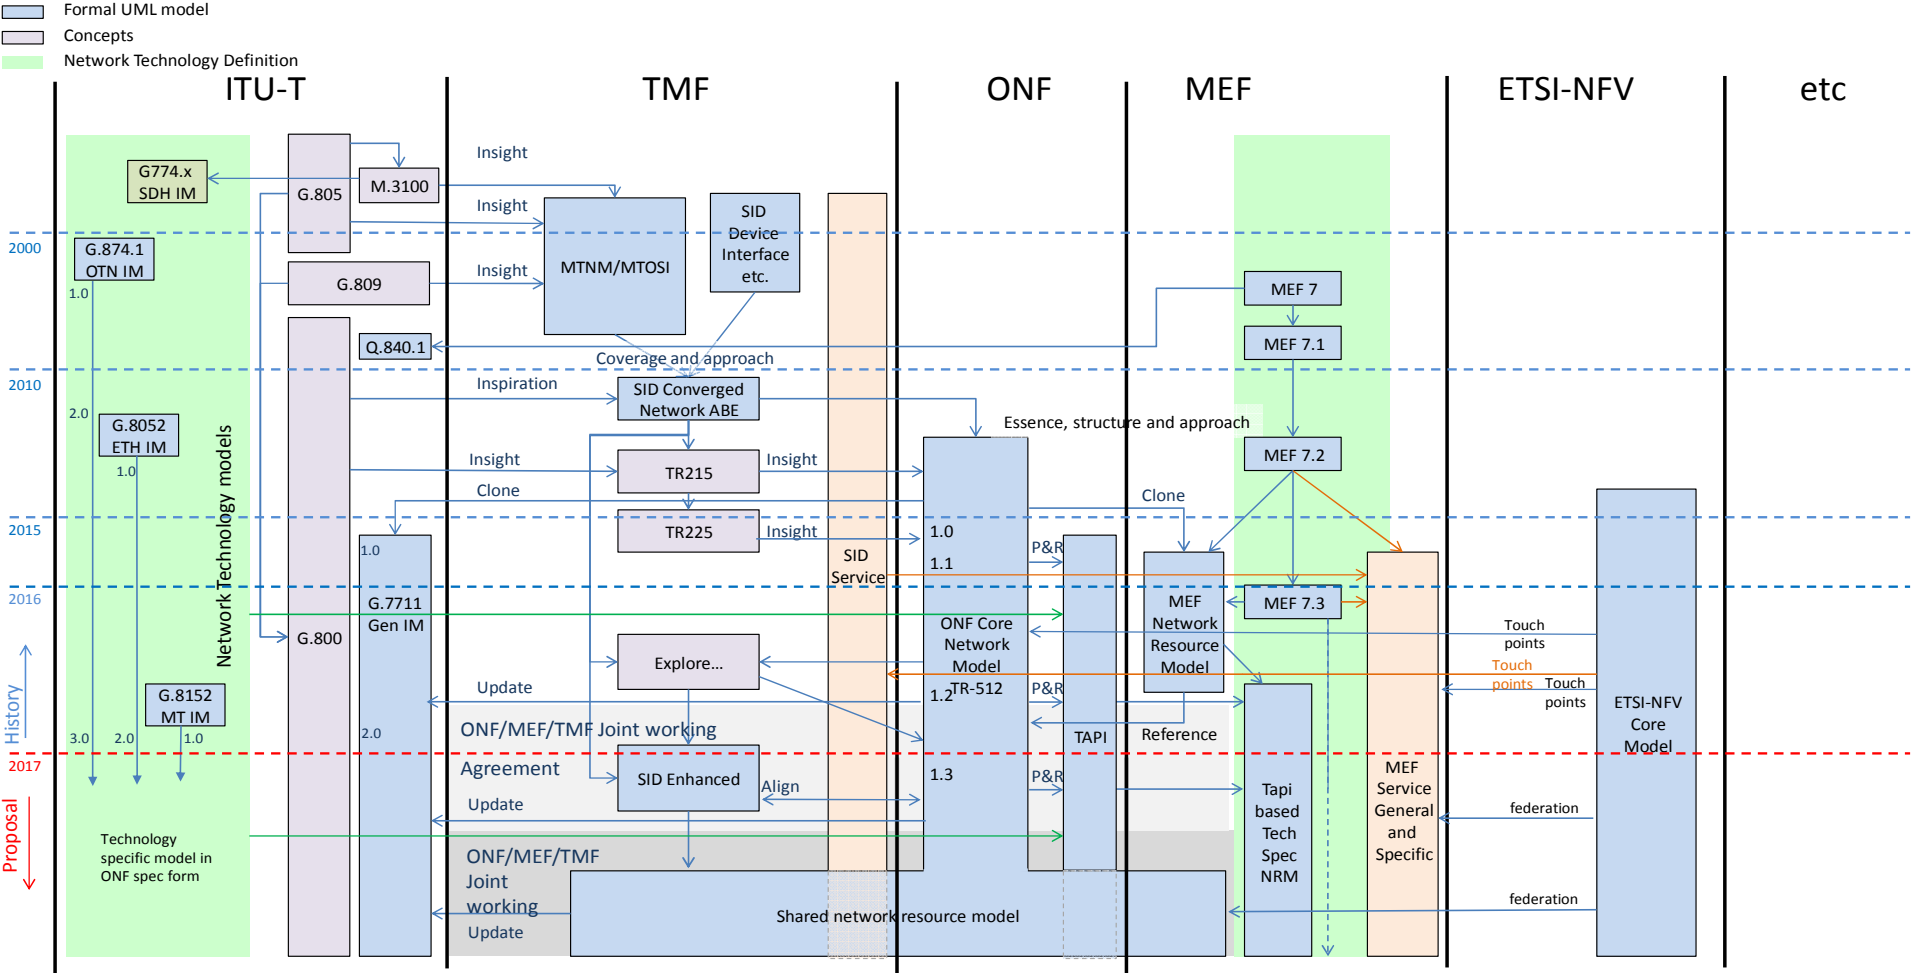

- Excellent opportunities for UML and YANG modelers
- Especially suited to undergrads and postgrads to gain industry experience
- Exposure to 130+ service providers in existing \$80Bn market with immediate impact on our industry!
