

TTCN-3 User Community India Chapter Work Shop

Date: 24th Sep 2010

Location: Wipro Campus, Bangalore

Registration Deadline: 3rd Sep 2010

Objective

This first, free workshop organized by the [Indian TTCN-3 Chapter](#) of the TTCN-3 community, brings together local and international testing experts, tool makers, and standardization experts to share experiences and discuss latest trends in testing and standardization. This year's workshop explores in particular TTCN-3 activities related to Long Term Evolution (LTE) and WiMax. In addition, special attention will be given to testing in standardization – how to monitor, how to contribute and how to get involved..

Registration

Registration and attendance of this workshop is at no charge. Please send an email mentioning your name and contact number to [Jayakishor Bhanja](#) to indicate your interest in participating in this Workshop by **3rd Sep 2010**. Please also use the opportunity to inform us about your interest in making a presentation proposal in this workshop by including a title and 50 word abstract. There is no requirement for attendees to present.

Note that you need to be registered in order to enter the Wipro Campus!

Preliminary Agenda

This is intended to be roughly structured into one tutorial and 3 different sessions with about three 20 min presentations either by invited speakers or proposals from the Indian TTCN-3 community. These presentations will be followed by a short general discussion (“ask the experts”) with all speakers from this session with the workshop audience. Tea & lunch breaks will provide ample time for networking.

09:00 - 10:00	Tutorial: Introduction to TTCN-3
10:00 - 10:15	Break (15 min)
10:15 - 11:30	Session I: General TTCN-3 User Experiences Topics: Automotive, tools, adapter implementation, processes, user challenges
11:30 - 12:00	Break (30 min)
12:00 - 12:30	Tool Vendor Presentation (10 min each)
12:30 - 14:00	Lunch (1h 30 min)
14:00 - 15:20	Session II: TTCN -3 Adoption in LTE and Imax testing Topics: Network versus terminal testing
15:20 - 15:50	Break (30 Min)
15:50 - 17:00	Session III: TTCN-3 and other Testing related Standardization Activities Topics: Introduction to ETSI TC MTS, TTCN-3 standardization update, activities on interoperability, security and model-based testing

Steering Committee

Jayakishor Bhanja, Wipro Technologies (Founder of TTCN-3 Indian Chapter)

Stephan Schulz, Conformiq (ETSI TC MTS Chair)

Srinivas Prasad, Sasken

Bhaskar Rao G., Motorola

Ranganath Mahapatra, L&T Infotech

Jayakumar Kamalanathan, MPhasis

Ravikiran A, NSN

Anthony Wiles, ETSI

Getting there

The Wipro Campus is located in Electronic City Phase I. Enter the campus through Gate 10.

Please note that rush hour traffic can lead to significant delays. Due to the ambitious program please try to arrive on time.
