

From TC EE Chairman

Q11: These deliverables do not have a proposed EN designation. Do the proposed actions fall within one or more existing document series?

BG: These standards are EN's but will not be a series (just independent EN numbering): WI's:

https://portal.etsi.org/webapp/WorkProgram/Report_WorkItem.asp?WKI_ID=50093

https://portal.etsi.org/webapp/WorkProgram/Report_WorkItem.asp?WKI_ID=50094

https://portal.etsi.org/webapp/WorkProgram/Report_WorkItem.asp?WKI_ID=50095

Q12: If the answer to Q11 is YES, what will the EN designations be and do the Introductions and Scopes of D05, D09

and/or D12 have to reflect that series?

BG: Not applicable (answer in Q11 is NO)

Q13: If the answer Q11 is NO, are the documents within their own series?

BG: see answer in Q11

Q14: If the answer Q11 is NO, do the documents stand alone i.e. with unrelated EN designations?

BG: see answer in Q11

Q15: Who will provide the Introductions and full Scopes for these documents?

BG: The scope is in the WI's quoted above. The introduction and full scope will be provided by the rapporteur.
