ETSI: European roots, Global outreach

- ETSI is a world-leading standards developing organization for Information and Communication Technologies (ICT)

- Founded initially to serve European needs, ETSI has become highly-respected as a producer of technical standards for worldwide use

ETSI: some facts

- Created in 1988
- Recognised ESO by the EU and EFTA
  - ESO: European Standard Organisation
  - EFTA: European Free Trade Association
- Independent, non for profit
- Governed by (**worldwide**) ETSI Members
- ETSI Members participate directly in the standardization process

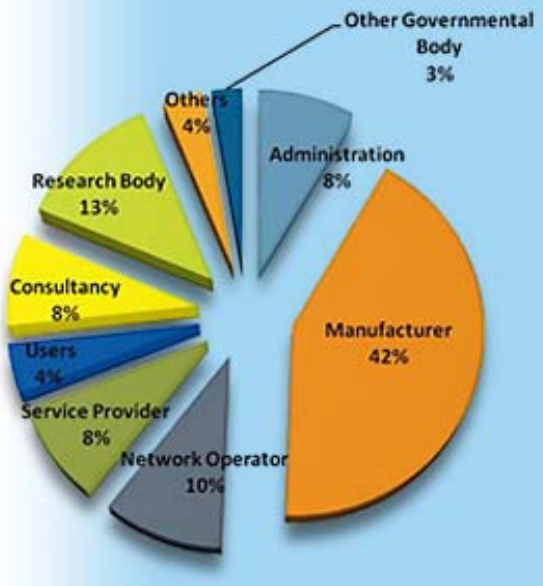
Products & services

- **Technical specifications and standards** with global application
- Support to industry and European **regulation**
- Specification & testing **methodologies**
- **Interoperability** testing

Membership

- Over **847 companies**, big and small, from **68 countries** on **5 continents**

- Manufacturers, network operators, service and content providers, national administrations, ministries, universities, research bodies, consultancies, user organizations



A powerful and dynamic mix of **skills, resources and ambitions**

Innovations

- Efficient and speedy standards-making
  - We need **4 supporting organisations** to create and publish our work
- **Agreement by consensus !!!**
- **Free download of all our standards**
- Electronic working to boost efficiency and reduce cost and environmental impact

Steadily increasing ETSI Membership
