ON-LINE SURVEY

Funded by the European Union

➢ Engage citizens and stakeholders with innovative strategies.

➢ Collect data from 4 different context (Noord Brabant, Trikala, Hamburg, West Midland) focusing on citizens' (especially people with mobility challenges) and stakeholders' needs, challenges, expectations, fears.

➢ Elaborate these data and develop knowledge maps.

➢ Share all the knowledge defined, created, and organized within the Project, through innovative tool, useful guidelines and simple recommendations towards capacity building for decision makers.

➢ All the above has the overall objective of fostering inclusive CCAM deployments, based on users' needs.

Cheers for SINFONICA!
